

# BOSSWELD POWERFLEX DOUBLE INSULATED WELDING CABLE

## AS1995-2003

Bossweld's Powerflex double insulated welding cable is made in Australia from 100% oxygen free copper. Its unique softness and flexibility, featured with double insulated NBR/NBR to V90HT (105C rated) outer shell, makes it the perfect cable for all welding applications. Powerflex cable is made using extra fine copper conductors for excellent voltage conductivity and cable flexibility.

### FEATURES

- 100% Australian Made
- Soft and flexible, without compromising on quality
- Full size range available  
16mm – 120mm
- Marked every metre
- Private branding available
- Complies to AS1995-2003
- Double insulated
- Highly flexible
- Abrasion resistant outer layer
- Supplied on a robust drum
- 0.6/1Kv
- Rohs Compliant

### APPLICATIONS

- Suiting mine sites
- Welding generators
- Electrical switchboards
- Welding lead sets

TYPE	LENGTH	PART NO.
16mm Powerflex Welding Cable	100 mtr	500018
16mm Powerflex Welding Cable	20 mtr	500018-20
25mm Powerflex Welding Cable	100 mtr	500019
25mm Powerflex Welding Cable	20 mtr	500019-20
35mm Powerflex Welding Cable	100 mtr	500020
35mm Powerflex Welding Cable	20 mtr	500020-20
50mm Powerflex Welding Cable	100 mtr	500021
50mm Powerflex Welding Cable	20 mtr	500021-20
70mm Powerflex Welding Cable	100 mtr	500022
70mm Powerflex Welding Cable	20 mtr	500022-20
95mm Powerflex Welding Cable	100 mtr	500023
95mm Powerflex Welding Cable	20 mtr	500023-20
