

TOOL MATE® Misting Lubricant

DESCRIPTION

TOOL MATE® Misting Lubricant is a fluid designed for venturi/micronizer/misting systems. It is chlorine and nitrite free. It also contains some veg oil.

BENEFITS

- Non toxic, non carcinogenic, low odour
- Protects aluminium from staining, rust protection for steel
- Excellent anti corrosion properties to protect ferrous and non ferrous machine tools and components.
- Doesn't damage rubber and plastic
- Doesn't clog venturi/micronizer system
- Doesn't contain silicon
- Residue doesn't interfere with powder coating and welding. Residue can also be washed down with water.

TOOL MATE® Misting Lubricant can be used neat or diluted upto 1:20.

STORAGE AND HANDLING: Keep container closed, prevent exposure to frost, and prevent water ingress. Store in cool, dry conditions, avoid direct sunlight. Indoor storage is preferable.
